SEWON LEE - ACADEMIC CV

Postdoctoral Researcher, Karolinska Institutet
Exposure Science | Chemical Exposure Assessment | Environmental Health
Exposome & Mixtures | AI-Assisted Exposure Assessment
LinkedIn: linkedin.com/in/sewon-lee-845182148

RESEARCH EXPERIENCE

2026-present | Karolinska Institutet - Postdoctoral Researcher
INQUIRE; indoor air quality and exposure to chemicals in homes.
2026-present | University of Seoul - Visiting Researcher (remote)
Collaboration on consumer product chemical exposure.
2024-2026 | University College Dublin - Postdoctoral Researcher
EIRE; neonicotinoid human biomonitoring, analysis and supervision.
2022-2024 | ISGlobal Barcelona - Researcher / Postdoctoral Researcher
Cancer-Watch; nitrate, THMs and cancer in French CONSTANCES.
2018-2023 | University of Manchester - Predoctoral Researcher
Respiratory hazards in cleaning products, SDS and exposure research.
2015-2017 | Seoul National University - Research Assistant
Indoor environmental monitoring and exposure assessment.

EDUCATION

2023 | PhD Occupational and Environmental Health, Manchester
2017 | MPH Environmental Health Science, Seoul National University
2015 | BS Health Science, Korea University

FUNDING / RECOGNITION

2026 | Karolinska Institutet Travel Grant
2025 | MSCA Postdoctoral Fellowship - Seal of Excellence
2025 | Sejong Science Fellowship Return Track (awarded, declined)

AWARDS

2025 | OHSI Poster Award
2021 | ISES Student Conference Award
2016 | Korean Society for Indoor Environment Best Poster Award

PUBLICATIONS - FIRST AUTHOR

2026 | Occurrence and Levels of Glyphosate, Chlorate and Perchlorate in Irish Drinking Water: A Pilot Study.
Water and Environment Journal. DOI 10.1111/wej.70078

2024 | Respiratory and other hazard characteristics of substances in cleaning products used in healthcare centres in England and Wales.
Safety and Health at Work. DOI 10.1016/j.shaw.2024.04.007

2024 | Inconsistent health hazard information across safety data sheets for substances in cleaning products used in healthcare centres.
Heliyon. DOI 10.1016/j.heliyon.2024.e35763

2024 | The application of the mobile application for the assessment of cleaning workers' exposure to cleaning products: a pilot study.
Annals of Work Exposures and Health. DOI 10.1093/annweh/wxad082

2021 | Insufficient respiratory hazard identification in safety data sheets for cleaning and disinfection products used in healthcare organisations across England and Wales.
Occupational and Environmental Medicine.

2020 | Introduction of Guidance of Infection Prevention and Control of COVID-19 at Public and Private Schools in Korea.
Journal of Environmental Health Sciences.

2017 | Seasonal differences in determinants of time location patterns in an urban population: a large population-based study in Korea.
International Journal of Environmental Research and Public Health.

PUBLICATIONS - CORRESPONDING AUTHOR

2026 | Large language model-based screening of substances and their composition from safety data sheets for high-resolution chemical exposure assessment.
Journal of Exposure Science and Environmental Epidemiology.
DOI 10.1038/s41370-026-00917-z

PUBLICATIONS - CO-AUTHOR

2026 | Exposure to imidacloprid among pet owners following the use of ectoparasite treatments. Environment International.

2025 | Insights from an Invited Expert Panel Using a World Cafe: Establishing a National Human Biomonitoring Programme Communication Strategy. Environment International.

2025 | Insights from an Invited Expert Panel Using a World Cafe: Developing a National Policy for a Human Biomonitoring Programme. Environment International.

2025 | Long-term exposure to nitrate and trihalomethanes in drinking water and breast cancer in the CONSTANCES cohort. Environment International.

2024 | Chronic exposure to drinking water nitrate and trihalomethanes in the French CONSTANCES cohort. Environmental Research.

2021 | Occupational Asthma Caused by Quaternary Ammonium Compounds: A Multicenter Cohort Study. Journal of Allergy and Clinical Immunology: In Practice.

2017 | Assessment of Indoor Air Quality in Daycare Centers using Long-term Time Variation of CO2 and Particulate Matter. Journal of Environmental Health Sciences.

2017 | Evaluation of Annual Indoor Environment Quality in Hospitals using Various Comfort-related Factors. Journal of Environmental Health Sciences.

LEADERSHIP AND SERVICE

2026 Nov (upcoming) | Global Exposome Ambassador, IHEN

2026 | Scientific Committee, ISES-Europe Workshop

2024-present | ISES-Europe Early Career Researcher Board

2024-present | ISES Mentorship Committee

TEACHING AND SUPERVISION

2024-present (as listed in source CV) | UCD Occupational Safety and Health Literature Review teaching and assessment.
2024-present (as listed in source CV) | PhD co-supervision, environmental and occupational neonicotinoid exposure assessment.
Training: Teaching and Learning Practice, Research Impact, and PM2 Project Management seminars.

SELECTED SCIENTIFIC PRESENTATIONS

2026 | ISES-Europe Dublin: acetamiprid among horticulturists.
2025 | ISES-Europe Lisbon: imidacloprid and pet treatments.
2024 | GORDS: respiratory hazards in cleaning products.
2025 | EPICOH Utrecht: occupational health journal costs.
2024 | ISES-Europe Berlin: cleaning-product app pilot.
2021 | ISES: safety data sheets and respiratory hazards.
2019 | Occupational Hygiene Conference Brighton.
2016 | ISES Utrecht: time-activity patterns in Korea.

SKILLS

Environmental and occupational exposure assessment
Biomonitoring, urine sampling, indoor air and dust monitoring
Chemical product inventories, SDS and AI-assisted methods
Data management and statistical analysis in R
Korean (native), English (fluent)
